HOW TO USE THIS CATALOG

Each stencil design is displayed in its own block. All available sizes and appropriate prices are given.

BLOCKS- are measured by their larger design dimension to ensure that they will fit on the work surface. Double Wedding Ring design measurements are explained on the page where the designs are pictured.

BORDERS- are measured by the width (or height) of the design rather than it's length.

C = Continuous Line Design

COPYRIGHT INFORMATION- The Stencil Company grants permission for the use of our stencils for the purposes of crafting and quilting. The designs featured in our catalog are not to be duplicated in stencil or paper form for commercial purposes due to copyright protection.

RETURN POLICY-

Damaged Packaging/ Product- Please contact us via e-mail or phone if you have received a damaged product, or if your product was damaged in transit. Keep all the original packaging material for carrier inspection (we will notify the Postal Service or UPS to submit a claim and they may require the original packaging material).

Returns or Exchanges- You may return unused and undamaged product for a full product price refund. However, to keep our shipping costs low, we cannot refund the shipping amount, or any additional shipping for you to return the product to us. Any shipping costs will be the customers responsibility. We suggest contacting us beforehand to discuss options for returns/exchanges so that the best course of action can be taken.

Frequently Asked Questions

What are the stencils made out of?

Our stencils are made out of a lightweight plastic. They are reusable and durable. The plastic is slightly opaque to help in positioning the stencil on your project.

How do I pick the right size stencil?

The sizes of the stencils on the website and in the catalog are the size of the actual design (a 9" stencil means the actual design is 9" at its widest point). Because of this, when choosing a design, you want to choose a stencil that is 1/2"-1" smaller than the size of your FINISHED block. This will give you a good spacing within your block or border while still filling it. The only difference to this rule, is with corner designs. With corner designs the size of the stencil is the size of the corner it will fit in. To determine the size of your corner, use the side measurement (one of the two equal sides- not the long side). In this case, an 8" corner design will fit into a corner which has an 8" side. As corner designs can be difficult to measure and fit, you are welcome to e-mail or call to make sure the design you are going to order will fit in your space. We would be happy to help you find the right size or design.

Can I iron my preprinted wholecloth?

Yes! Iron your mini or full sized wholecloth from the back on a medium setting. The important thing to remember is to EMPTY ALL THE WATER FROM YOUR IRON FIRST. Heat will not set the lines, but water will remove them!

How do I remove the lines from my preprinted wholecloth?

When you are completely finished quilting, soak your quilt in cool water, with NO SOAP. The length of time to remove the lines will vary, with some disappearing right away and others taking longer. All lines should disappear within an hour of soaking. Do not remove lines by spraying or dabbing with water. This will only force the ink down into your batting, damaging the quilt later on. You need to soak the quilt to completely remove the ink. If you are planning on using colored thread or other fabrics, be sure to test their color fastness prior to soaking.

My Marking Pencils keep breaking, what can I do?

We recommend only marking about 10-12" and then sharpen the tip. This will keep you from unintentionally marking too hard or letting it get too dull. Use a hand sharpener or a battery operated sharpener to get a good point. Do not use any kind of sharpener that will put pressure or vibrations on the pencil- as it will cause the chalk to break inside the pencil shaft. Be careful with your pencils, they are sturdy, but the chalk mixture can be fragile, if the pencils are dropped or handled roughly. If you still experience problems with your chalk pencils breaking try putting them in the freezer overnight. This will freeze the clay mixture in the pencil and you should be able to mark without the tips breaking!

Do you ship to other countries?

Yes! We have been happily serving the international quilting community for over 20 years! Every day we ship to many countries all over the world. If you would like a shipping quote prior to ordering, you can put the items into your shopping cart, then click to view your cart and click the button to estimate shipping/ The shipping cost is based on the size and weight of the package and what country it is going to. We ship by US Postal Service, either 1st Class International or Priority Mail International.

Where is my order?

If all of the items you have ordered are in stock the order will be shipped within 2 business days. If any items are out of stock your order will be held for completion. This may take from 1-4 weeks- depending on our manufacturers cutting schedule. If you have any special time constraints or a need to have us contact you regarding your split-shipping options please contact us if you have not placed a note on your online order (you were prompted to enter any special notes at the Order Review section).
